

How Do I add text to a PDF?

You can also add new text to a document using the TouchUp Text tool:

1. Ctrl-click/Option-click within the document where you want to add the text. The New Text Font dialog box opens with the default options -- Arial text and horizontal writing mode.

2. Select the font and writing mode (horizontal or vertical), and click OK.
3. The default text "New Text" displays on the page. Select it, and then type the new text

New Text

4. Click outside the new line of text to finish the process. The text is unselected and the new line of text is complete.
